## **GNTracking manual**

## I. Accessing GNTracking application

1. When you will "Click" the link, at the bottom of your browser's page, you will see this:

- 2. Click "Keep"
- 3. You will get this at the bottom of your browser's page, you will see this:

~	/	
gntracking (9).jnlp	-	

If you can not perform step 3, it can be that you PC does not have java, please install it from here: <u>https://www.java.com/en/download/chrome.jsp</u> and repeat the 1-3 steps.

4. After you will click on "gntracking.jnlp". You will get this window:

Do you	ı want to run this	application?	-
-	Name:	gnweb	
1	Publisher:	Geo++ Ges. für satelliteng. geo. u	
C	Location:	http://moe.lmi.is:8080	
		cted access which may put your computer and personal ion only if you trust the location and publisher above.	
Do not	show this again for apps	from the publisher and location above	
<b>1</b>	fore Information	Run Cano	J

5. Push "Run" button and you will get login window:

iNTracking Login at	las.lmi.is Σ3	
Login information		
User:	dala	
Password:		
	📗 Don't ask again	
Ok	Cancel	

6. Log in using your user name and password, that you use for real-time corrections or in RINEX web application.

I. Benefits of GNTracking application

1. Stations' availability in real-time.

File View	Vindow About	
	Realtime	From: 2016-05-09-13:43 To: 2016-05-09-14:43 🔘 Advanced
Select "Re	eal-time" and push "	play" button. Follow the picture below:

2. Expand "Receiver/Localhost". You will see skyplot for each station. In the Network section, you can see what stations are available. If stations have green triangle and are visible, that means they are up and running.

UNG	AKUR ~ Skyplot III localhost ~ Information
